I am a dedicated **React JS Front-End Developer** with over 2 years of experience, specializing in creating dynamic websites using React JS and Next JS and modern JavaScript tools. I've collaborated with more than 2 clients and 20+ cross-functional teams to implement new features and API endpoints. My focus has been on delivering exceptional user experiences through the seamless execution of new features

Experience

React JS Developer

ITInformatix Pvt. Lmt., Indore, M.P., India.

01/2021 to Present

- Created responsive websites using semantic HTML5, CSS3, JavaScript, and React JS.
- Optimized UI performance for handling large data sets, minimizing HTTP requests and rendering components efficiently.
- Implemented Third-party libraries like Bootstrap, MUI, and Ant Design to ensure responsive and visually appealing UI.
- Integrated Grubhub's API to facilitate order services and real-time order tracking.
- Utilized Google Maps API, Wallet system, and Stripe Payment gateway to enhance functionality and user experience.
- Implemented live chat feature to improve customer engagement and support.
- Collaborated with clients and development teams in meetings to ideate and plan user interface designs and application features.
- Conducted troubleshooting and debugging to swiftly resolve application issues and ensure smooth functionality.
- Maintained comprehensive documentation, including application changes and updates for future reference.
